

**Orthopedic Surgeon – Hand and Upper Extremity Division
Duke Department of Orthopedic Surgery**

January 2021

The Department of Orthopedic Surgery at the Duke University School of Medicine seeks an ABOS certified (or eligible) orthopedic surgeon with fellowship training in **hand and upper extremity** to join the Department at the rank of Assistant Professor, Associate Professor, or Professor. Academic rank and salary will commensurate with experience.

The successful candidate must demonstrate excellence in the areas of clinical care and surgery, teaching, scholarly activity, and institutional service appropriate to the programmatic needs of the department. It is expected that the hired individual contribute to clinical and/or basic science research within the hand and upper extremity division. The ideal candidate will have a record of academic productivity and scholarly work; have demonstrated competency in managing complex cases, and an interest in teaching residents and fellows.

Clinical focus and research experience in Nerve Regeneration and/or Pediatrics and Brachial Plexus is desired, but not required.

This position will be an integral part of the hand and upper extremity division in the Duke Department of Orthopedic Surgery. The majority of the practice associated with this position will take place in Durham, with potential to expand the practice into Wake County.

The **Research Triangle Park** is a globally prominent hub for high-tech research and development. Conceived around three major universities in **Durham, Chapel Hill and Raleigh**, the region attracts and fosters cultural diversity, economic resilience, and nationally recognized as a great place to live and work. To learn more about the Duke and Greater Triangle communities, **visit: <http://community.duke.edu/>**

If interested, please apply to the link below and upload your CV, letter of interest, and three professional references.
