Developing an improved return to sport assessment tool after ACL Injury

You may be eligible for this research study if you:

- Have undergone primary ACL-Reconstruction
- Are 13-25 years old
- Have recently (within approximately 6 weeks) been cleared for unrestricted return to sport by your orthopedic surgeon
- Plan to return a pivoting/cutting sport

This study will be completed in the Michael W. Krzyzewski Human Performance Laboratory (K-Lab). Participants will perform strength and functional performance testing (jumping, landing, and hopping). Participants will be compensated $50 for completion of study. Please contact Laura Pietrosimone PT, DPT, PhD (laura.pietrosimone@duke.edu) to learn more.
